Abbreviations list

This document is incomplete. The external file associated with the glossary 'acronym' (which should be called `main.acr`) hasn't been created.

Check the contents of the file `main.acn`. If it's empty, that means you haven't indexed any of your entries in this glossary (using commands like `\gls` or `\glsadd`) so this list can't be generated. If the file isn't empty, the document build process hasn't been completed.

Try one of the following:

- Add `automake` to your package option list when you load `glossaries-extra.sty`. For example:

  `\usepackage[automake]{glossaries-extra}`

- Run the external (Lua) application:

  `makeglossaries-lite.lua "main"`

- Run the external (Perl) application:

  `makeglossaries "main"`

Then rerun LaTeX on this document.

This message will be removed once the problem has been fixed.
